# OGUTU JOHNSON OMONDI

## ICT SUPPORT SPECIALIST & TRAINER | JUNIOR DATA SCIENCE

Nakuru, Kenya • +254 112 783 060 / 0755 439 917 • ogutujohnson615@gmail.com

LinkedIn: linkedin.com/in/johnson-ogutu-b478142bb • GitHub: github.com/Johnson-ogutu

## PROFESSIONAL PROFILE

ICT professional with hands-on experience spanning IT support, computer laboratory administration, ICT training, networking, systems troubleshooting and business data analysis. Holds a Diploma in ICT and a professional certificate in Data Science & Machine Learning (Python). Experienced in supporting users and ICT infrastructure, analyzing biometric attendance data with Power BI and Python, preparing technical documentation and delivering practical instruction. Combines strong troubleshooting ability with data-driven thinking and a practical, service-oriented approach to technology.

## CORE COMPETENCIES

| | | |
|---|---|---|
| • IT Support & End-User Troubleshooting | • Computer Laboratory Management | • ICT Training & Practical Instruction |
| • Data Analysis & Visualization | • Python & Machine Learning | • Power BI & Power Query |
| • SQL & MySQL | • Networking & Wi-Fi Troubleshooting | • Hardware & Printer Maintenance |
| • CCTV, Biometric & IP Systems | • Windows Installation & Administration | • Technical Documentation |

## PROFESSIONAL EXPERIENCE

### ICT Support Specialist & Trainer | Nakuru College of Health Sciences and Management

*Jun 2026 – Present*

- Provide ICT support across academic and administrative environments, including computers, printers, networking equipment, CCTV systems and related ICT infrastructure.
- Maintain and troubleshoot a 40-computer laboratory, supporting reliable day-to-day learning and practical training operations.
- Deliver training in Computer Applications, Digital Literacy and ICT units, with practical instruction in networking, AutoCAD, health records database management and related subjects.
- Analyze staff and student biometric attendance data using Power BI and Python; clean, transform and visualize datasets to support reporting and operational decisions.
- Support the school website and portal, user accounts, shared digital resources and routine systems administration.
- Prepare schemes of work, records of work, lesson materials, practical assessments, examinations and marking resources for ICT-related units.
- Contribute to ICT improvement initiatives involving digital transformation, data management, system security, backups, paperless workflows and ICT course promotion.

### ICT Support Intern | Sarova Woodlands Hotel & Spa, Nakuru

*Oct 2025 – Jan 2026*

- Provided first-line technical support to 120+ users across hotel operations.
- Supported POS, PMS, printers, networks, CCTV, biometric systems and IP phones.
- Performed Windows installation, software deployment, troubleshooting, system maintenance and backups.
- Worked with switches, access points, MikroTik networking, DHCP/DNS concepts and routine network troubleshooting.
- Responded to operational technology incidents and supported end users in resolving hardware and software issues.

## SELECTED PROJECTS

**Power BI Biometric Attendance Dashboard** — Cleaned and transformed staff/student attendance data, developed dashboards and analyzed check-in/check-out patterns.

**Voice Gender Classification System** — Python machine-learning project using Logistic Regression and Random Forest for classification.

**Book Recommendation System** — Recommendation-system project applying data and machine-learning concepts.

**Poultry Management System** — KNEC ICT project developed as a practical management application using Visual Basic 6.0.

## TECHNICAL SKILLS

**Data & Analytics:** Python, Pandas, NumPy, Scikit-learn, Power BI, Power Query, Excel, Tableau, Matplotlib, Seaborn

**Databases:** SQL, MySQL, database management

**Programming & Development:** Python, R, C/C++ fundamentals, Visual Basic 6.0, HTML/CSS fundamentals

**IT Infrastructure:** Windows, computer hardware, printers, LAN/Wi-Fi, switches, routers, access points, MikroTik, DHCP/DNS

**Systems & Support:** CCTV, biometric systems, IP phones, POS/PMS support, backups, user accounts, website/portal support

**Tools & Platforms:** Jupyter Notebook, Google Colab, VS Code, GitHub

## EDUCATION & PROFESSIONAL CERTIFICATION

**Certificate in Data Science & Machine Learning (Python)** — Edureka, India | 2025

**Diploma in Information & Communication Technology** — Christ the King Training Institute, Nakuru | 2025

**Kenya Certificate of Secondary Education (KCSE)** — Ombeyi Secondary School | 2018

## PROFESSIONAL STRENGTHS

Problem solving • Analytical thinking • Communication • Practical training • Team collaboration • Adaptability • Documentation • Customer/user support • Continuous learning

## PROFESSIONAL REFEREES

| NAME | POSITION / ORGANIZATION | CONTACT |
|---|---|---|
